MÓDULO  
PAINEL SOLAR

1

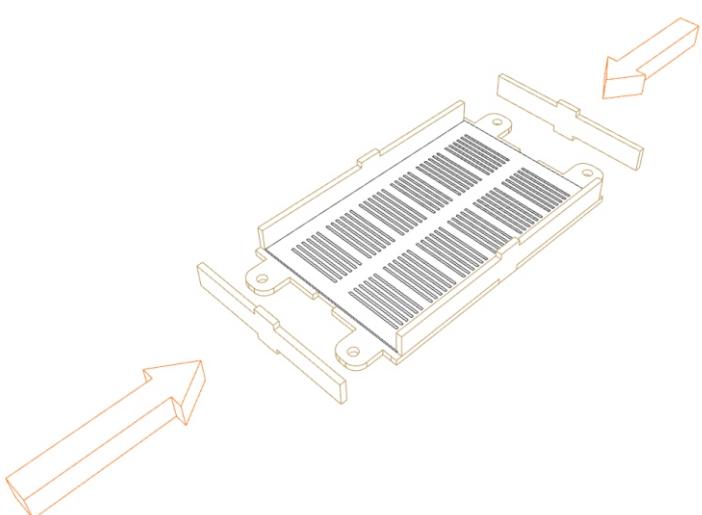

2

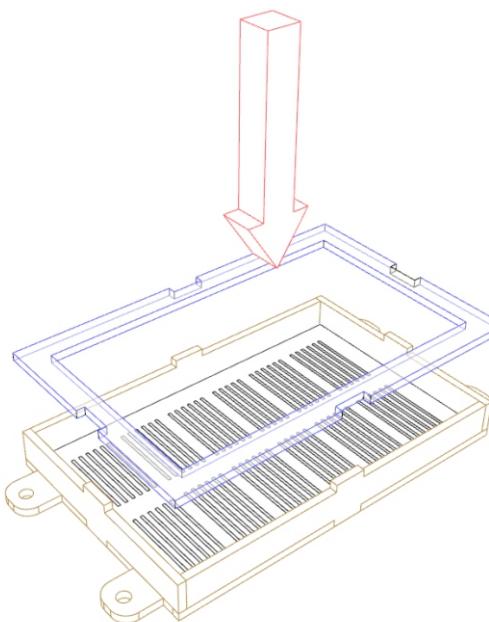

3

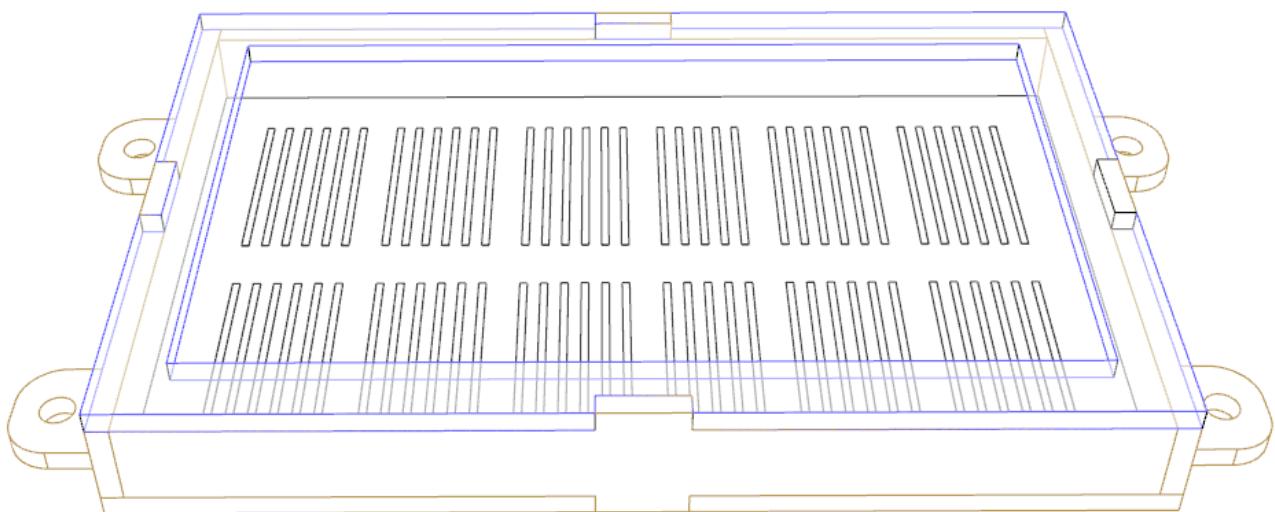

Posicione o painel solar sobre a peça de MDF. É importante que no painel solar já tenha dois fios soldados em cada terminal. Estes fios devem ser passados pelos furos na peça de MDF.

4

5

O módulo de painel solar pode ser usado como fonte direta de energia.  
Pode-se integrar vários painéis solares para aumentar a tensão elétrica gerada.  
Evite unir as pontas dos terminais elétricos soldados na placa.

*Inspirando para o futuro!*
